✓ OEM/ODM Availability:	Yes		
TÜV Rheinland Serial NO. :	MIC-ASI226781	Report Verification	Read Free Report
Average Response Time:	≤6.98h		

Hebei Guanjin Technology Co., Ltd. Was founded in 2021, located in Shijiazhuang city which is the capital of Hebei Province and hub sector among Beijing Tianjin and Hebei and has advantage of convenient transportation. Our company is a modern high-tech chemical enterprise with Research & Development, production and sales.

Our company has strong technical strength, advanced equipment, strict quality management system and high-quality after-sales service, insists on integrity as the company' S survival. All for the customers' Satisfaction, all for the long-term healthy development of the enterprise. In the past 2 more years, we have been strictly managing the whole trade process, focusing on every detail, providing customers with all-round services such as product purchase, R & D, quality control, logistics management and so on, and become reliable cooperation company and partner for our clients. Nowadays We formed large varieties, large scale, complete categories, refined degree, added value and high technology content product chain. There are several series including pharmaceutical products, food grade additives, industrial grade, fertilizer grade and mineral products.

In recent year, Our company will continue to adhere to the strategic positioning of fine chemical industry in the future and competition ideas of irreplaceable product differentiation, and strive to become to the leading of Chinese chemical industry.

In recent year, Our company will continue to adhere to the strategic positioning of fine chemical industry in the future and competition ideas of irreplaceable product differentiation, and strive to become to the leading of Chinese chemical industry.

Production Capacity													
Factory Address:	Haiyue Tiandi, Qiaoxi District, Shijiazhuang City, Hebei Province												
✓ R&D Capacity:	ODM, OEM												
✓ No. of R&D Staff:	1												
No. of Production Lines:	Above 10												
Annual Output Value:	US\$2.5 Million - US\$5 Million												
Ever Annual Output of Main Products:	<table border="1"> <thead> <tr> <th>Product Name</th> <th>Units Produced (Previous Year)</th> </tr> </thead> <tbody> <tr> <td>Corn starch</td> <td>2000000 Tons</td> </tr> <tr> <td>HFCS(High Fructose Corn Syrup)</td> <td>400000 Tons</td> </tr> <tr> <td>Dextrose Monohydrate</td> <td>450000 Tons</td> </tr> <tr> <td>Dextrose Anhydrous</td> <td>100000 Tons</td> </tr> <tr> <td>Maltose Syrup</td> <td>300000 Tons</td> </tr> </tbody> </table>	Product Name	Units Produced (Previous Year)	Corn starch	2000000 Tons	HFCS(High Fructose Corn Syrup)	400000 Tons	Dextrose Monohydrate	450000 Tons	Dextrose Anhydrous	100000 Tons	Maltose Syrup	300000 Tons

Basic Info.

Model NO.	75% 80%	Type	Malt Syrup
Nutritional Value	Nutritional	Effect	Sweetener
Resource	Natural	Product Name	Maltose Syrup
Other Name	Malt Syrup	Name	Barley Malt Syrup
Content	99%	HS	17023000
Grade	Food Grade	Usage	Food Additive/Sweetener
CAS No	8002-48-0	Molecular Formula	C12h22o11
Shelf Life	2 Years	Purity	99
Sample	Free	Certificate	Non-GMO/Halal
Properties	Transparent Liquid	Ingredients	Malt Syrup
Transport Package	70kg/Bartrlor Custom-Made	Specification	99%
Trademark	GJ/YuFeng	Origin	China
HS Code	17023000	Production Capacity	50000ton/Year

Product Description

Hebei Yuxing brand food grade malt syrup 75% 80% malt syrup

Product Description

Malt syrup is a thick syrup made from maltose that is commonly used in the manufacture of sweets, pastries and other foods.

Fructose syrup is known as high fructose corn syrup(HFCS) . The saccharified liquid from enzymic method saccharified starch isomerizes part of glucose into fructose through the isomerization effect by glucose isomerase. It is a kind of mixing syrup which consists of glucose and fructose. Fructose syrup can replace cane sugar. Just like cane sugar, it can be widely applied in food and beverage industry. Especially in beverage industry, it has better flavor and taste and lower price than cane sugar. Its usage has outstanding advantages in food and beverage industry
